See MPEP 1302.04.

Reasons for Allowance

2) The following is an examiner's statement of reasons for allowance:

The prior art rejection set forth in paragraph 5 of the last office action has been withdrawn in view of applicant's arguments filed 11-10-03; it being emphasized that Shibata, which teaches using siliceous reinforcing agent in joint rubber 7 but only using furnace black in the sidewall rubber 3 and tread rubber 5, fails to teach a lug and groove configuration extending from the tread over at least 30% of the tire sidewall and fails to suggest modifying Brown et al such that the lug and groove configuration of the sidewall
